Sub:-- Request for Removing Universal Lock under Profile Form section and extension of date of its submission under Executive Defined Contributory Pension Scheme, 2007

Dear Sir,

The Profile Form section has been embedded with a Universal Lock system under which, once an executive member submits the Profile details, subsequent correction is permitted by Nodal Officers only.. We feel this system is utterly flawed in its implementation. None of the Nodal officers, except on rare occasions, are responding to the phone calls and committing errors by executive members are rampant in nature. Most of the retired executives, working executives in mines and dependant are not familiar with this new age computer technology. Most of them are wasting their time and money in cyber cafes, and their agony is multiplied when they try, and try hard, for making corrections. The presumed last date of submission, i.e. 15th February 2019 is already gone and the submission process is still continuing as well.

Under the circumstances, it is requested to kindly allow universal unlocking of the Profile section so that members are able to make corrections, if any. They have already password-protected their Profile, and there is no need to have an additional control by provision of LOCK button in the hands of Nodal officers. This demand is further justified, given the fact that, ultimately all members are to submit hard copies of Form CS-S1, as has been stipulated by PFRDA to which CIL NPS scheme has subscribed to and is being governed by PFRDA provisions. Needless to state, this Form CS-CS1 is the only authentic record based on which annuity providers will be selected and annuity option chosen will be operated.

Hence we reiterate our demand to UNLOCK the profile section, as was initially for 2 days and request extension of submission date of Profile form to a convenient date beyond, such that scheduled implementation of scheme is not affected.

Regards,

P K SINGH RATHOR
Principal General Secretary
