Sub: - Request for posting of MTs & AM (Mining) in UG mines for gaining experience for clearing Second class Mines Managers Examination

Dear Sir,

Every year, CIL is recruiting MTs and AM (Mining) to meet its future manpower requirements. No doubt, Mining Engineering professionals are backbone of this coal industry and they are primarily responsible for growth of this industry. Naturally, grooming of these MTs and AMs for their proper career growth needs proper attention of all persons who matter.

Every Mining engineer dreams of passing/clearing 2nd Class Mines Manager's examination and for appearing in 1st class examination which is conducted by DGMS (Directorate General of Mines Safety). This competency requires good experience of working in underground coal mines. However, due to various compulsions at company and individual levels accompanied by lust for white-collared jobs, a good chunk of these mining professionals is deprived of posting in underground mines. Many such executives are posted in oc mines and also at corporate offices. This trend ultimately is detrimental for the career growth of these mining professionals and also, CIL also loses the services of professionals at higher posts.

Under the circumstances, it is requested that efforts may kindly be initiated so that these MTs and AMs are also posted in underground mines to enable them clear these mines managers' competency examination.

With regards,

(P. K. SINGH RATHOR)

Principal General Secretary
